My dear friend

I have just come home this very cold snowy night from P. S. where after the P. S. lesson we had a solemn tender talk about how one person could get another to find a blessing from God -

I could not but think of the dear members of my class + I feel it laid upon me to write you this personal note -

I write to each of you as a saved soul.

If you are not saved my dear friend - flee to the merciful Saviour as you would fly into this warm room to night out of the cold streets + the drifting snow - - - If you are saved - humbly trusting in what Jesus did when His love failed not on the Cross - think of others not saved - NOT SAVED - going on to the eternal darkness - your near friend your relative - and do something! - When you have

faith enough + love enough to start out in the effort to bring a soul to the Saviour - God the Holy Ghost joins in your effort, for God wants every one saved + He works with even the poorest instrument that engages in His work - - Please read over again the words I have just written -

I want now to ask you to settle your mind and heart on some particular person to pray for and work with + not give up until that person is converted.

Your help is in God - He will put thoughts into your heart - ways into your mind + words into your mouth - He will tell you when to be silent + only pray + show your concern -

If you once have the joy + sweet pleasure of bringing one soul to Christ, you will be hungry to get another - Do not argue - do not be rebuffed - be patient + gentle + keep on with a prayer in your heart + drop a good word here + there as you go along - an invitation to meeting - to the class - take your friend to the Pastor or your teacher for a little talk - if discouraged go yourself + pray with your pastor or teacher - Persevere, it is an undying soul you are laboring for + any angel would come down from heaven if such could be, to do the very work you have the opportunity to do - Oh, what a pleasure it will be to you to have some new born soul beside you at the next Supper of the Lord - If you would like to write to me + tell me who you have chosen to labor for + will let me remember you in prayer I will be very glad - If you wish me to advise with you in any way let me know + do not fear that your letter or visit will take too much of my time - Do not put off a single hour - hearts grow harder and colder every day + Eternity is near.

God bless you every moment + your home also - Yours in the hope of heaven + to win our friends to go with us.

Geo Handmaker  
Your Teacher
